## HammerSHIELD™

### CO-EXTRUDED FOAM NOW AVAILABLE FROM HAMMER PACKAGING

Shrink foam is finding its way onto many consumer products that protect consumers from excessive heat or cold when handling.

#### PRINTING

HammerSHIELD™ is printed using our state-of-the-art Variable Sleeve Offset Printing (VSOP) press. Key features include:

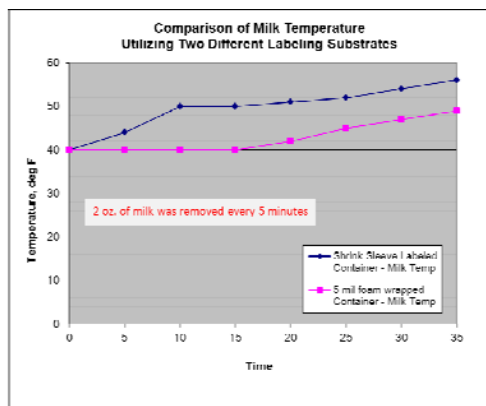

- HIGH QUALITY OFFSET PRINTING
- 8-COLOR PLUS INLINE LAMINATION
- 9-COLOR WITHOUT LAMINATION
- UV / E-BEAM INKS AND COATINGS
- COMBINATION PRINTING
- NEW PLATES FOR EACH JOB
- 100% DTP PREPRESS

#### APPLICATIONS

Oriented Poly-Styrene Foam is a substrate with unique properties that is fast finding its niche in consumer product markets.

HammerSHIELD™ is excellent for:

- MICROWAVABLE PRODUCTS
- HOT/COLD THERMAL PROTECTION

- 360-DEGREE BRANDING
- CONFORMING TO SHAPES
- LIGHT BARRIER TINT (beverages)

#### BENEFITS

Hammer Packaging and its foam product, HammerSHIELD™, deliver many benefits to its customers:

- DOMESTIC SOURCED SUBSTRATE
- HIGHER PRINT QUALITY WITH A SMOOTHER SURFACE
- ECO-FRIENDLY INKS & COATINGS
- LOW DENSITY FOAM = LESS MATERIAL, LOWER COST & HIGHER INSULATION PROPERTIES
- NO PLATE CHARGES

#### TECHNICAL SPECS

This thermal-protective substrate has the following attributes:

- 5 – 11 MIL. THICKNESS
- CO-EXTRUDED SMOOTH PRINT SURFACE
- ULTRA WHITE OPAQUE SURFACE
- LIGHT BARRIER TINT AVAILABLE
- PATENTED TECHNOLOGY
